WORK HISTORY

Freelance Motion Graphic Design | Upwork & Other Clientele - Lindon, UT
11/2022 - Current

- Created compelling virtual daycare tour for PHANTA on Upwork, boosting parent engagement and offering visually immersive facility exploration experience.
- Spearheaded creation of three compelling video assets for Kickstarter campaigns, resulting in rapid funding success of comic book projects within 24 hours.
- Built seamless animated looping slides for high-impact PowerPoint presentations on Upwork.
- Developed engaging YouTube ads for brands like Metal Storm and Weed Inc. to enhance brand awareness and user engagement.

Senior Full-Stack Developer | 2ndVote - Nashville, TN
03/2022 - 01/2023

- Led design and development of responsive web applications, consistently meeting tight deadlines.
- Managed and enhanced 2ndVote's websites with Mockingbird Framework and WordPress front-end.
- Designed and executed websites, campaigns, and custom applications tailored to

2ndVote's needs.
- Developed WordPress plugins and rewrote existing plugins to exceed company's expectations.
- Designed a custom admin interface for database management and live result display.

Tools Used: Photoshop, Illustrator, HTML, JavaScript, PHP, Django, WordPress, and Git

Full-Stack Developer | Relic Advertising - Provo, UT   *12/2020 - 09/2021*
- Customized and created from scratch Wordpress themes in PHP, delivering functional and visually appealing websites.
- Managed various Wordpress environments, including Elementor, Frontity, and Gutenberg maintaining multiple client websites.

Tools Used: Photoshop, Illustrator, HTML, JavaScript, PHP, Wordpress, and Git

Front-End Developer | FMG Suite - Pleasant Grove, UT   *08/2017 - 11/2020*
- Designed and customized 400+ websites using HTML, jQuery, JavaScript, and SCSS.
- Created responsive layouts and templates in the FMG Suite Content Management System following UX/UI best practices for clients.
- Partnered with clients to solve design challenges, ensuring a personalized, one-on-one experience. Managed real-time updates for change requests during conversations.
- Coordinated with cross-functional teams to deliver exclusive designs for highest-paying clients.

Tools Used: Photoshop, Illustrator, InDesign, jQuery, SCSS, Wordpress, and GitHub

Full-Stack Developer | TECHeGO, LLC - South Jordan, UT   *06/2017 - 08/2017*
- Created relational databases on Podio platform, utilizing SQL-like structure to store data.
- Redesigned user interface of TECHeGO's product "print.thatapp.io" (Print), streamlining its functionality in under 6 hours.
- Created user-friendly instructional videos for diverse clients, simplifying usage of unique systems in their infrastructure.

Tools Used: Podio API, webhooks, and hoist.thatapp.io to create custom solutions for database updates, employing MySQL, REST API, PHP, JSON, and JavaScript.

Associate Consultant | Dell EMC - Draper, UT   *06/2016 - 09/2016*
- Collaborated within SCRUM team to foster exceptional working atmosphere.
- Engineered JavaScript code to overhaul InDesign functionality, enabling large-scale document transformations by seamlessly extracting and replacing XML data.

Tools Used: Documentum, InDesign, SCRUM, XML data manipulation, JavaScript.

Front-End Developer | Unkubed, LLC - Orem, UT   *04/2014 - 12/2015*
- Collaborated with team to execute 45 million HTML email campaigns using Photoshop and Illustrator, ensuring compatibility across email clients, resulting in $14 million in annual revenue.
- Developed PHP web app interfacing with dynamic MySQL database and email API to schedule ADA-compliant email campaigns for diverse products to specific customers.

Tools Used: Coda, Photoshop, Mailchimp, Mailchimp API, HTML, CSS
